LIBERATORY  
INNOVATION

THE INSTITUTE FOR  
LIBERATORY  
INNOVATION

THE INSTITUTE FOR  
LIBERATORY  
INNOVATION

As a result of all this activity, educators become more knowledgeable and reflective about social equity and they are more confident and willing to engage social equity in and out of the classroom.

## OUR MISSION

The Institute for Liberatory Innovation creates opportunities for change-makers to think, experiment and learn together, and to generate and implement strategies for a more equitable and nonviolent future.

## The Equity Scholar in Residence Model What Happens In The School

An equity scholar has studied social equity deeply, and knows how to find information and resources quickly.

..and that leads to increasing social equity in the school, and more access to education for all.
